Compte-rendu de dimanche :

Citation :

1) Blender 2.79 release

- There were several important fixes, a RC2 is needed. Will happen in course of week.
- Bastien Montagne will provide a list of fixes in RC1.
- Actual release then will happen earliest in 10 days from now.

2) Blender 2.8 projects

- Joerg Mueller is updating Audaspace in 2.8 branch.
- Cycles: work is being done on faster compiling of OpenCL kernels.
- The usual Monday morning kickoff meeting for 2.8 coders gets moved once to tuesday. (Dalai's back from holidays then).

- Now everyone's coming back from holidays, we need planning update for 2.8.

This page already gathers most topics though:

<https://wiki.blender.org/index.php/Dev:2.8/>

3) GSoC and other projects

- Last official week of coding for students. Next week is for final report, docs, submitting code to Google.

Donc la premiÃ¨re version stable de la 2.79 devrait venir dans moins de 15 jours

.
